The data provided above is intended to provide information about the number of students who have graduated from a particular type of academic program. Because the programs may be offered at one or more of the campuses listed above, the rates do not and cannot reflect the on-time completion rate for a specific academic program at a specific campus.

If the number of students who completed a program during the award year was less than ten (10), for privacy reasons, the institution will not disclose this information (shown as N/A).

Frequently Asked Questions

ON-TIME COMPLETION RATES

1. Who is considered a completed student?

A completed student has completed the graduation requirements for their program and is classified as a graduate of the school.

2. How are On-Time Completion Rates calculated?

These rates are calculated using the gainful employment formula in order to comply with U.S. Department of Education requirements. The statistics track all students who completed their program within the date range noted above and have reached completion within the program's designed time period. For example, for a two-year program, the on-time completion rate would include all completed students who had started their program at this school two years prior.

Campus: Colorado Technical University - North Kansas City

Graduation Rate	
Number of first-time, full-time undergraduate students who started between 7/1/2005 - 10/15/2005	**The percent who completed within 150% of the normal time period**
100	35%

Frequently Asked Questions

GRADUATION RATE

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this campus. This means that a student who attended another college, university or other postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students initially enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How is the Graduation Rate calculated?

The rate is calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time and certificate or degree-seeking undergraduate students who began school during the date range noted above and have completed within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had completed within three years of beginning the program. Information pertaining to the Graduation Rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website.

Accrediting Bureau of Health Education Schools (ABHES)

ABHES is recognized by the United States Secretary of Education for the accreditation of private, postsecondary institutions in the United States offering predominantly allied health education programs and the programmatic accreditation of medical assistant, medical laboratory technician and surgical technology programs leading to a certificate, diploma, Associate of Applied Science, Associate of Occupational Science, or academic associate degrees and programs offered by distance delivery.

Reporting period: July 1, 2010 through June 30, 2011

Date Submitted: October 2012

Employment Rate Calculation:

(F + R)/(G-U)=P%
F = Graduates placed in their field of training
R = Graduates placed in a related field of training
G = Total graduates
U = Graduates unavailable for placement (health-related issues, military obligations, or continuing education status)
P% = Placement percentage

CAAHEP – Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA)

Reporting Period: August 1, 2009 to July 31, 2010

Date Submitted: May 2012

The mission of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting is to provide recognition for the quality of the education programs in its system to the public. The ARC/STSA® is the only CAAHEP-recognized Committee on Accreditation for education programs in surgical technology and surgical assisting.

More Information:
The ARC/STSA threshold for Graduate Placement is 80%.

Total Number of Graduates Placed[1]
Divided by/
Total Graduates = Placement Rate

[1] Number of graduates employed in the field within one year of graduation
Plus (+)
The number of graduates who were both employed in the field within one year of graduation and continuing their education
Plus (+)
The number of graduates who were not employed in the field within one year of graduation but continued their education

Joint Review Committee on Education in Radiologic Technology (JRCERT)

Reporting Period: January 1, 2007 through December 31, 2011

Date Submitted: July 2012

The JRCERT promotes excellence in education and elevates quality and safety of patient care through the accreditation of educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. The JRCERT is the only agency recognized by the United States Department of Education for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry.

More Information:
The JRCERT threshold is a five (5) year average job placement rate of not less than 75% within six (6) months of graduation

Job placement rate is defined as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences within six months of graduation.
