The data provided above is intended to provide information about the number of students who have graduated from a particular type of academic program. Because the programs may be offered at one or more of the campuses listed above, the rates do not and cannot reflect the on-time completion rate for a specific academic program at a specific campus.

If the number of students who completed a program during the award year was less than ten (10), for privacy reasons, the institution will not disclose this information (shown as N/A).

Frequently Asked Questions

ON-TIME COMPLETION RATES

1. Who is considered a completed student?

A completed student has completed the graduation requirements for their program and is classified as a graduate of the school.

2. How are On-Time Completion Rates calculated?

These rates are calculated using the gainful employment formula in order to comply with U.S. Department of Education requirements. The statistics track all students who completed their program within the date range noted above and have reached completion within the program's designed time period. For example, for a two-year program, the on-time completion rate would include all completed students who had started their program at this school two years prior.

Graduation Rate		
Number of first-time, full-time undergraduate students who started between 7/1/2005 - 10/15/2005	The percent who completed within 150% of the normal time period	
102	29%	

Frequently Asked Questions

GRADUATION RATE

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this campus. This means that a student who attended another college, university or other postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students initially enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How is the Graduation Rate calculated?

The rate is calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time and certificate or degree-seeking undergraduate students who began school during the date range noted above and have completed within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had completed within three years of beginning the program. Information pertaining to the Graduation Rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website. http://nces.ed.gov/collegenavigator/

CAAHEP - Medical Assisting Education Review Board (MAERB)

Reporting Period: Average of Last Five Calendar Years

 $\underline{\textbf{Date Submitted:}}\,$ November 2011 for Calendar Years 2006 - 2010

The Medical Assisting Education Review Board is an autonomous unit within the American Association of Medical Assistants Endowment. They complete program reviews, based on the CAAHEP Standards and Guidelines for Accreditation of Educational Programs in Medical Assisting. As the medical assisting Committee on Accreditation of the Commission on Accreditation of Allied Health Education Programs (CAAHEP), the MAERB makes accreditation recommendations for the status of accreditation of medical assisting programs.

More Information:

The MAERB threshold for Graduate Placement is 60%.
