#### NOTES:

- Tuition rates are for all Active Duty, Reserve, and National Guard military personnel serving in the U.S. Armed Services, and their eligible spouses.
- Total tuition cost is based upon the total number of credits remaining in the individual student's degree program. The total number of credits taken at Colorado Technical University may vary due to transfer credits, block transfer, or repeated courses. Students possessing an earned Associate degree from an accredited institution at the time of admission to Colorado Technical University may be eligible for a block transfer of credits into select Bachelor degree programs. See the Degree Programs section of the catalog for descriptions of the degree programs.
- Program tuition is charged per credit hour each quarter throughout the student's program, and is charged at the beginning of each quarter. Each academic quarter is 11 weeks, and consists of two 5 1/2 week sessions.
- The university reserves the right to increase institutional tuition rates during the course of an academic year. As such, a student's financial aid packaging may be subject to adjustment to account for these monetary changes.
- Military tuition rate cannot be combined with any other CTU scholarships/grants. Course materials charges are derived by taking a weighted net average cost per course multiplied by the number of courses in the term. The average cost of course materials varies by degree type.
- For all students eligible for the military tuition rate, the course materials charge will be posted to a student's account once each term only, after the add drop period. The charge will then be waived, resulting in no net cost to the student.
- A \$1,000 non-refundable fee is charged to a student's account each quarter in which a student is registered for symposium. This fee covers administrative costs such as conference rooms, AV equipment, academic event materials and supplies that are associated with the symposium event. Please see the Doctoral Symposium section of the catalog for more information.
