Since faculty engagements and other commitments are made by the university in advance, the following refund schedules have been established:

The "official date of withdrawal" is the date on which the student notifies the school in writing of their intent to withdraw. If no official written notification is given, the school determines the date the student has withdrawn based upon the attendance policy in the catalog. The institutional refund is based on the student's last date of attendance according to the refund schedule below.

2. If the student's last date of attendance is during the second week of the term, students in a regular 11-week course receive a 75% tuition refund. Students in a normal 5½-week course or a 5½-week independent study course will not receive a refund and are charged full tuition and fees for that term.
  3. If a student withdraws from the university, the tuition refund is based on the student's overall last date of attendance.
  4. If the student's last date of attendance is after the second week of the term, students will not receive a refund (11 week and 5½ week).
  5. The above figures do not include the cost of books and supplies or non-refundable standard fees. Any prepayment for subsequent terms is refunded without penalty.
