***G.I. Jobs Magazine Recognizes Colorado Technical University
as a 2012 Top Military Friendly School***

COLORADO SPRINGS, Colo., Nov. 28, 2011 – For the third consecutive year, [Colorado Technical University](#) (CTU) is honored to be recognized by *G.I. Jobs Magazine* as a Top Military Friendly School. The 2012 list of Military Friendly Schools® honors the top 20 percent of universities, colleges and trade schools that are doing the most to embrace America’s military service members and veterans as students.

The *G.I. Jobs* results are based on research conducted on more than 8,000 universities, colleges and trade schools nationwide and surveys of student veterans. This feedback can provide prospective military students with insight into the student veteran experience at particular institutions based on peer reviews from current students. According to *G.I. Jobs*, the schools on this year’s list prioritize the recruitment of students with military experience. These schools make the grade by offering scholarships and discounts, veterans’ clubs, military credit and other services to those who served.

“CTU values the opportunity to provide military men and women with a quality higher education,” said Jim Hendrickson, Vice President of Military Education for CTU. “I’m proud of this distinction, which shows current and prospective military students that CTU degree programs, faculty and advisors can help meet their education goals.”

About one-third of the CTU student population consists of active military, reservists, National Guard, veterans and their spouses. To best serve this population, the CTU Department of Military Education has a team of specially trained advisors who are knowledgeable in areas that affect military students such as voluntary education procedures, education benefits, military training transfer credit and CTU military friendly policies regarding military deployment while in school.

In addition to being a Post 9/11 G.I. Bill and Yellow Ribbon Program participant, CTU annually awards 25 Wounded Warrior Scholarships and 25 Wounded Warrior Spouse Scholarships to deserving recipients. The scholarship program was created in 2008 to offer educational assistance to wounded service men and women as they recover from their injuries and for their spouses as they prepare for new career opportunities. To date, the [CTU Wounded Warrior Scholarship program](#) has awarded 200 scholarships worth nearly \$4 million.

CTU gives military students flexibility and accessibility to higher education whether they are deployed or at home through its availability of online classes and support services. For more information please visit:
