

COMMITMENT GRANT TERMS & CONDITIONS

ELIGIBILITY:

- Students must be employed with a Company that has entered into an agreement with the University to offer The Commitment Grant to their employees and be eligible to receive the Company tuition assistance meeting the minimum requirements of the Commitment Grant Program.
- Students participating in the Commitment Grant Program may not receive federal student financial aid programs (such as Pell grant and Direct Loans). The choice to participate in the Commitment Grant is optional and any eligible federal student financial aid is always available to students who choose that payment in lieu of participation in the Commitment Grant. Students will become ineligible for the Commitment Grant if they choose to receive funds from any federal student financial aid program after receiving Commitment Grant benefits.
- Students that choose to receive federal student financial aid are not eligible for the Commitment Grant.
- Students that choose to receive federal student financial aid during the Commitment Grant period will automatically become ineligible for the Grant and their participation in the Commitment Grant program will automatically end. Students are responsible for any and all charges incurred for future tuition charges and fees, and will be ineligible to receive Commitment Grant benefits in the future.
- Students who are currently receiving federal student financial aid and/or have an outstanding tuition or payment plan(s) balance are ineligible to start utilizing the Commitment Grant Program until the end of the current academic quarter and after any existing balance is resolved. Any future federal financial aid disbursements will be canceled at the Student's direction upon acceptance of the Commitment Grant.
- Students must complete and submit all required Commitment Grant Program paperwork prior to the start of classes.
- Students' eligibility to receive the Commitment Grant may require approval by the Company in writing in accordance with any applicable Company policy. In addition, the University or the Company may remove a student from the Commitment Grant Program at any time.
- Taking Employees' work commitments into consideration, courses may only be taken at a defined pace outlined in the Company's Commitment Grant Supplemental Terms & Conditions as found in the student's school portal documents.
- Students must maintain eligible employment with the Company (as defined by the Company) to receive and continue participation in the Commitment Grant Program. Students no longer maintaining eligible employment with the Company will lose their Commitment Grant Program eligibility at the end of their current session (defined as one 5 ½ week session).
- The Commitment Grant is only available for online degree programs specified by the University.
- Students receiving two (2) unsuccessful grade(s) (as defined by the Company policy) may affect the Student's eligibility to continue to participate in the Commitment Grant Program.
- Loss of eligibility from the qualified employer tuition assistance policy may result in the student becoming responsible for payment of the relevant session's tuition costs. Additionally, student will no longer be eligible for the Commitment Grant for future sessions and tuition will be charged from that point forward at the regular cost per credit hour rate for the program unless Commitment Grant eligibility is reinstated by Company and University.
- All applicable University General Grant and Scholarship Conditions must be met as outlined in the University Catalog.

TUITION:

- The Commitment Grant covers direct education-related costs which includes tuition for all eligible degree program courses, course materials, technology fee, and graduation fee. Students are responsible for expenses outside of those paid by the Commitment Grant, including but not limited to, transcript and records request fees.
- The Commitment Grant will cover any approved session so long as a student remains eligible for the Commitment Grant, is eligible for the minimum Company tuition assistance necessary and the Company continues to participate in the Grant program.
- Students who receive an unsuccessful grade that the Company will not reimburse (as defined by Company policy), and the unsuccessful grade is the only grade earned during the session, you/your employer will not be charged by University for that course. If the unsuccessful course is taken concurrent to a course in which the student is successful, the full per session billing rate will be charged. If two courses are unsuccessful in a single session, the student will not be charged for the session and the student may no longer be eligible to continue to participate in the Commitment Grant Program.
- Students are responsible for ensuring tuition reimbursement funds are remitted to Colorado Technical University in accordance with the terms of the Company's tuition assistance/reimbursement policy. If the University does not receive payment as a result of the student's failure to take the necessary steps outlined in their Company's tuition assistance policy (including but not limited to submission of grades to employer, third party tuition assistance provider or accuracy of tuition assistance application submission) the student will become responsible for payment of the unpaid tuition costs. Student will be billed directly for unpaid tuition costs.
