

## HLC Student Achievement Disclosures

*Updated 12/01/2022*

The Higher Learning Commission (Public Information (FDCR.A.10.070)) requires that institutions make available to students and the public accurate information regarding student achievement. Retention, completion, and post-graduation data is provided for Colorado Technical University students below. CTU programs are not designed to prepare students for particular state-level certification or licensing exams, therefore information about state licensure pass rates is not included.

Programs that are no longer accepting enrollments were excluded from this disclosure.

## Retention Rates

The following **retention rates** represent students that were active in the program as of the indicated quarter and were subsequently retained in or graduated from the program as of three quarters later (which represents one academic year).<sup>1</sup> Students that are removed from the population due to not having proof of high school graduation or its equivalent on file are excluded from the data.

<sup>1</sup>The program level retention rate is the percent of all students who were active (1) in the program as of sixteen (16) days after the start of the indicated quarter, and were subsequently retained (2) three quarters later at the same point of the quarter.

- (1) A student is considered to be active if they possess a status of Active, Externship, Probation, Leave of Absence (LOA), Standard Period of Non-enrollment (SPN), or Pending Graduate.
- (2) The number of retained students includes those that were active in or have graduated from the program.

\*The CTU campuses at Colorado Springs and Denver South were closed in response to the COVID-19 pandemic. CTU does not have information about how these closures might have impacted individual students; therefore these rates may not be indicative of a typical student's experience and should not be relied on as an indication of what students can expect should they enroll at the University.

## Completion Rates

The following **completion rate** tables reflect information for CTU full-time students that completed the program within 150% of the standard program length<sup>2</sup>. Each cohort consists of all initial program entrants who enrolled during the 150% time period preceding the award year indicated in the chart below. An award year runs from July 1 to June 30. Students who transfer among programs are counted in the denominator for those programs, but only in the numerator of the program from which they graduate. The degree level full-time completion rates represent the total of all enclosed program level specific analysis. A student may be included within a degree level cohort more than once if they initially entered more than one program at the same degree level within the time period. Students that are removed from the population due to not having proof of high school graduation or its equivalent on file are excluded from the data. Because CTU has a student population that is largely working adults, including military-affiliated, and because a number of corporate partners require students to take one

Programs that are no longer accepting enrollments were excluded from this disclosure.

course at a time, part-time students are not included in completion rate tables. Full time / part time status is determined based on credits attempted during the first term after entering the program.

<sup>2</sup> The University had identified the standard program length for its programs, which is used as part of external data reporting. However, the actual program length can vary depending on the individual circumstances of each student including, but not limited to, the impact of transfer or proficiency credits earned or courses that are repeated.

## Median Earnings of CTU Graduates

### Colorado Technical University (all locations)

According to the Department of Education's College Scorecard\*, CTU students receiving Title IV funds that completed their programs in the following fields of study from July 1, 2014 to July 1, 2016 had **median earnings** two years after leaving the institution as indicated in the chart below. CTU students who did not utilize Title IV funds are not included in the data.

Programs that are no longer accepting enrollments were excluded from this disclosure.

<b>Program</b>	<b>Median Earnings<sup>3</sup></b>
